

EV Charging Station

How It Works

Charging your EV car battery is easy. Here's how it works:

1. Download the [EV Connect mobile app](#), available as a free download for both iOS and Android devices.
2. Log in or register to create an account.
3. Select the "Charge" button and scan the QR Code or type the ID number located on the station.
4. Plug in your vehicle and then press "Begin Charge."
5. Choose a connector and then give the station a few seconds to connect to the platform.
6. Once charging, the screen will display the details of your session.

EV Charging Station Location

Ontario Town Hall – 1850 Ridge Road

Once you have completed charging your electric vehicle, please move it to a non-charging space so others may utilize the charging stations.

The Town of Ontario's electric vehicle charging stations were made possible through a grant from the Charge Ready NY Program and New York State Energy Research Development Agency (NYSERDA).

Charge NY

evconnect
