Current Project Update

- Summer concert series is off to a good start. The Finger Lakes Symphony Orchestra performance of July 5th needed to be cancelled due to weather and the potential harm that could be caused to musical instrument from heat and very high humidity.
- The town has been accepted as a large project for funding the recovery of the town’s boat launch/waterfront which was damaged by 2017 high water levels.
- Knickerbocker Road land purchase has been completed by the Town Board and should close within a week or so.
- Boy Scout projects under consideration are bench(s) at Memorial Point and a bird watch station west of the Butler Pavilion on the Tobin donated lands. End of summer planned for the work.
- The 2018 Community Art project is well underway. All entries are currently on display. Most are located at the Greenway, one in the Town Hall lobby and one on the front porch at the Community Center.
- Four kayaks for use at Casey Park have arrived. Funds came from the remaining Friends of the Park money which should close out that account.
- An Aquatic facility continues in the early stages of planning.
- Every Sunday, July 29 through November 4th, a farm market will be held on the old fireman’s field between Ridge Road and Rt. 104 across from Wayne Elementary School. 10:00 a.m. to 2:00 p.m.
- Summer Send-Off planning meeting to be held on July 30. Same general format as last year. Addition of kiddie rides being considered.
